

HERCULES
Safaris

About us

Since 2005 , Hercules Safaris launched itself into the professional hunting and safari industry , with confidence and conviction. Hercules Olivier (founder) , realised that he would have to start hunting/guiding professionally sooner than later, as the hunting grounds was just too attractive to stay away from, and as a young man, his budget could not support such an irresistible passion for the wild.

The company initially started as a plains game predominant safari provider, and then took a swirl into the neighbouring countries of South Africa, Mozambique and Zimbabwe , on a more Dangerous game heavy pursuit. This steered us into doing Both Plains game and Dangerous game , by bow , rifle, handgun or muzzleloader , for our clients , at any permitted time.

The past 15 years has been a humbling journey of growth for the one man band company, which is well known throughout the USA and Canada today.

Still guiding frequently , Hercules aims to maintain the specialised one on one time , with all clients where possible. Groups no larger than 10 people at a time , are adopted into the main camp , to secure attention to detail. Exclusive hunting dates are kept, for those who wish to be in camp alone, or with their own comrades , family or friends , for the specific time of their hunt.

Hercules is also a musician and enjoys spending time around the campfire, playing guitar and entertaining guest. Nothing beats a campfire with live music, a cocktail and some good old stories.

Food and Accommodation Facilities

We provide luxurious accommodation, that will suit your needs for a full-blown African hunting experience. Our facilities also provide you with the opportunity to bond with friends and family over a game of pool, darts and playstation for the kids. We also offer FREE unlimited WIFI so you can stay in touch with loved ones at home. We stock a great variety of alcoholic beverages which are included in your day fees. The bar area is decorated with a great variety of African trophies and is a popular place to hang out and plan our next adventure together.

Our trained chefs will prepare a full breakfast early morning and pack lunch, to enjoy traditional picnic style, in the bush while hunting. They will welcome you back after your hunt with a variety of snacks served while relaxing in our comfortable entertainment area. Enjoy dinner with fellow hunters and family around the campfire and experience delicious local cuisine. Our chefs enjoy preparing game meat from the animals you have harvested and spoil clients with dessert every evening. Our en suite rooms will give you the privacy you need to relax and rest. All rooms are air-conditioned to keep you cool in the summer and warm during winter. A serving tray with percolator will comfort the coffee lovers. House staff will clean and tidy your room and provide daily laundry service.

Hercules Safaris relocated in May 2019 to a new main concession in Limpopo named, Mokwaripa. The new concession was purchased from a property investment company, which never ran the asset for the hunting safaris business , in the 8 years of their ownership. The exceptional Trophy quality that it contains, goes without saying. The 6000 acres of private property lies very comfortably next to a very well maintained black top tar road, that makes the travel to and from the concession very easy and stress free. There is also an additional 5000 acres adjacent to the concession that will form part of main camp from 2019 March. The topography is mainly flat , sweet bushveld, that makes stalking very comfortable even for the more seasoned hunters to walk in, so to speak. We were lucky enough to rake in the adjacent neighbourhood concessions and hunting rights , right of the bat. The direct hunting acreage available for our clients in the area, exceeds 50 000 acres within 45 minutes of driving from camp. The Limpopo province is well known for trophy hunting as it is rated the number one hunting destination in the world.

Hunting

Hercules safaris is a team that offers everything you require for your great African expedition. Our hunting safaris are aimed at those who have the desire to experience Africa to the full. Our client base varies from individual hunts to large groups and family vacations . Whether you hunt with a rifle or bow, Hercules Safaris has a professional hunting team with years and years of experience that will guide you on an unforgettable hunt. We only use top quality experienced professional hunters that has been part of the Hercules Safaris family from the beginning. They are fully kitted out for your hunting adventure, and will be able to provide you with anything you might need, as the hunt progresses.

We specialise in family vacations and amazing side trips for everyone's different need.

Here are just a few examples of the side trips we offer to guide you on:

Kruger National park
Hot Air Balloons Rides
Orange River Canoe 2-6 day trips
White river Rafting
Abseil
Sky Diving
Theatre - Live Concerts Etc.

Elephant Back Rides
Deep Sea Fishing or Tiger Fishing
Scuba diving
Zip line
Bungee Jumping
Wine Tours

Dangerous Game

Buffalo, hippo and elephant are hunted in our concessions next to Kruger National Park. Our Lion concessions are in the Khalahari and Leopard hunts run in the Waterberg and Soutpansberg Mountains in Limpopo. The Loskop valley area in Mpumalanga has also delivered us with quite a few big Toms in the past, and so did Mozambique, Zimbabwe and Namibia.

Bow Hunting

Mokwaripa (new concession) is based in a very dry northern Bushveld, which gives our bow hunters the ultimate advantage to locate game, around the waterholes. Bow hunting is an invigorating sport and it requires a substantial amount of patience and persistence as you all know. Our bow hunters succeed in almost every trophy on their wish list during a 10 or 14 day hunt. Blinds can vary from a grass built elevated blind, ground blinds, temporary blinds, and pit blinds, all depending on the required method of the specific animal hunted. Some bow hunters are fortunate enough to harvest two or three trophies a day when all works well. Obviously hunting is hunting and can never be guaranteed, but on a bad day around here, you will see at least a hundred animals a day, up close and personal, coming through the waterholes. We are very well set up for bow hunting.

Taxidermy

After 15 years of experience, Hercules Safaris now only works with the best Taxidermies in the world. Whether it is for dip and ship or to create true artwork, they will correspond with you personally from day one to ensure you get the best quality work done imaginable.

Videography

We are proud to be the title sponsor of the tv show, WORLD OF RUSH OUTDOORS for 2019 and you could feature on one of the episodes if you would like your hunt to be filmed.

A professional videographer is always available to film your once in a life time African Safari. It is highly recommended that you spoil yourself with a professional film to keep your experience alive for years to come.

Please book well in advance for Videos, as the pro's run a tight schedule.

The team at Hercules Safaris, has been filtered through the past 15 years and has evolved into a very well-oiled machine, as practice makes perfect.

Staff

Head tracker: Agrippa

Agrippa grew up in Zimbabwe's famous Wangee national park. His father, the head game scout and ranger, taught his boys the finest form of tracking, that the human mind could ever imagine. Tracking animals for 300 days a year, for 40 years consecutively, in service of the park, would bring one to the skill level of the legendary Ngwenya, Agrippa's father. It is almost worth the entire trip, just to see a tracker of this calibre at his full capacity. We are honoured to say that we lose less than 1% of the animals hunted annually. Our clients hunt an average of 500 animals per year combined...

Edias Ngwenya is an astonishing tracker and also the head of our anti poaching unit.

Lost Mashandu our "Jack of all trades" does our Engineering work, welding, driving, building and painting. You name it, he can do it. Tracking with the team is just another skill he owns.

Christopher Ngwenya is very skilled with carpentry. Still in training with skinning and tacking with the rest. Always helps with a great big smile, no matter what time of day.

Ida Mbizi, wife of Agrippa, our top Chef in the kitchen. Her father work for a German family as a Chef in there home in Zimbabwe. With her amazing creative cooking skills, baking home made breads, jelly (jam) and ability to multitask as well as management, Ida takes great pride in serving our hunters great meals and always make sure that the hunters gain a few pounds on a hunting trip, instead of loosing a few.

Vimbai, our room service lady, can be trust with a million dollars. She cleans all the rooms and does your laundry daily. Making sure that your bedding and rooms feel like home. She is also in training as a chef, and will climb the ladder very rapidly with her great attitude.

Our reputation was built on word of mouth, and breath taking moments. Give us a chance. You shall not be disappointed
